06. Read the following passage and answer the question given below.

Natural Disasters in Our Country

Natural disasters mean disaster occur naturally in the environment. In other words, any sort of disaster which happens without the interference of the man is called a natural disaster. But there are some other disasters occur due to the involvement of the man. Cyclones, earthquakes, tsunami, forest fire, floods, earth slips, and epidemics are main natural disasters in our country. But sometimes there is an involvement of people for disasters like earth slips, sea erosion and floods.

Natural disasters are very harmful to human beings and property as well. It is very difficult to prevent some natural disasters, but there is a possibility to minimizing destruction they may cause. In the past people didn't have any way of getting information about disasters in advance as science and technology was not developed. But in the modern world there some ways to identify some disasters before the occur. For instance, Geologists can predict on possible earth slips and earth quacks. Now scientists have invented equipment to alarm about tsunami in advance. Such instruments help a lot to prevent dangerous disasters.

1. What is a natural disaster?

.....

2. What are the Natural disasters occur in our country?

.....

3. Does the man involve in some disasters?

.....

4. Name two disasters occur with the involvement of man.

.....

5. In present, Who can predict on Natural disasters?

.....

(05 x 1 = 05 Marks)
